There's a game-breaking bug at lvl 89.

But it's also boring, uninspired and dull.

Forget about this one and better get one of the other titles of this Mosaics-series.. Ouch. No trace of the exquisite handcrafted patchworks of "Mosaics Galore", "Alice's Patchwork 1,2" and "Pirate Mosaic Puzzle: Caribbean Treasures".

I've played to level 40 and I only encountered very low-resolution collages made of badly-photoshopped photo clippings, most of them quite ugly.

A huge disappointment, even for its very small price. Play the other titles instead.
